

Welcome Galaxy Czars!!

(and wannabes ... like me)

- Have you checked out the wiki page? Survey results are posted:
 - <http://wiki.g2.bx.psu.edu/Community/GalaxyCzars>
 - Also a recorded July WebConference.

What's in a name?

- Not to late to change us from Czars.... Suggestions?
 - “People crazy enough to think they could host Galaxy?”
 - ... might be too long a name.

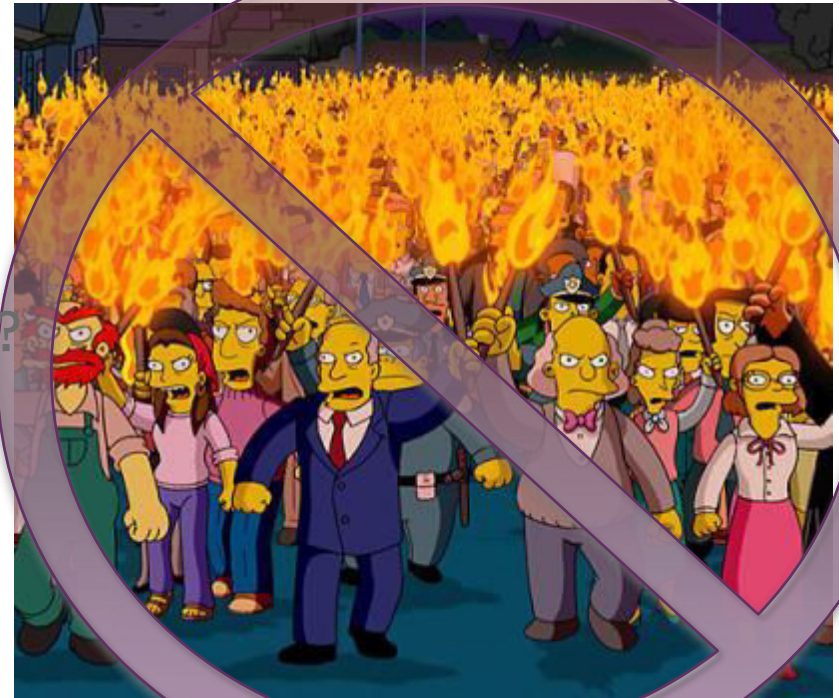

Community Get Togethers:

- Logistics: Address how we want to tackle these calls. Go over generic agenda. Frequency of calls
 - **Every other month... next one Sept. 2012**
 - **Technology? How did it work?**
- Group Goals: what do we want to accomplish with this group beyond discussions/sharing?
 - **??????**

Goals of Community?

- Find commonality?
 - Can we define a set of common things we are all doing
 - ? Customer Scenario Driven Galaxy Testing ?
 - Can we define a set of common problems we are experiencing?
 - Can we find common features that will make our lives easier?
 - ... and can we get support of Galaxy Core Team???
 - Promise: no angry mob

The Galaxy Team

■ **THANK YOU! THANK YOU! THANK YOU!!!!**

Ugh.... And just sayin ...

Galaxy Vote Box?

- <https://www.dropbox.com/help/136/en>

A screenshot of a web browser displaying the Dropbox Help Center page for 'Votebox'. The browser's address bar shows the URL 'https://www.dropbox.com/help/136/en'. The page content includes the Dropbox logo, a 'Sign in' button, and the heading 'What is Votebox?'. Below the heading is a link to 'Back to Help Center' and a paragraph explaining that Votebox is a feature for users to suggest and vote on website improvements. A 'Help Categories' sidebar on the right lists various topics like Basics, Sharing, Photos and Videos, Referrals, Desktop, and Mobile. The browser's download bar at the bottom shows three files: '159525.strip.gif', 'MorLogo-Tran....png', and 'br_bn-uilogo.png', along with a 'Show all downloads...' link.

Common Problems?

- How to tune tools for Cluster?
 - Can tools be templates ? (think migration problems...)
- Multiple input files to workflows or steps?
 - Running sample batches, pooled calls, etc?
- Multi tool version support
- Tracking all versions used w/ a workflow... ?
- Common topologies?
- Linking file system data & galaxy ... ie not requiring an import.
- ????

Our Next Call – We Need You!

Volunteer, Please!!!

- 20 min: Galaxy in Our Town. - presentation from a local galaxy institution on what they are doing or a problem they are troubleshooting - or have someone walk through their use cases and pain points.
- 20 min: Galaxy Today/Tomorrow. - presentation on a galaxy coding item. Either from penn state team, or from someone working on a new feature or customization.
- 20 mins: Open Mic Discussion & make point to point connections. IE - organize smaller breakouts if someone wants to host a call specific to an issue.
